Application Documentation

Table of Contents

1. User Roles

1.1 Approvers

Approvers, a smaller and relatively stable group, access the platform with their pre-existing accounts. They log in using their email IDs and use their faculty ID as a password. To enhance security and ensure authenticity, Approvers verify their accounts using their VIT email IDs.

1.2 Participants/ Organizers

Participants actively engage with events, clubs, and activities. Verification as organizers by fellow organizers or approvers requires logging in with their own email IDs and registration number as a password to prevent fake accounts.

Alternatively, Random Passwords can be sent to both through their mail for verification.

2. For Faculty (Approval Side) Login

2.1 Event Oversight

Faculty members gain comprehensive visibility into all campus events, including those associated with the clubs they supervise. This promotes a well-informed campus community.

2.2 Event Coordination

Faculties can actively engage in event coordination with students and clubs, fostering effective planning and execution. This leads to well-organized and successful events.

2.3 Club Roles

Faculty members are empowered to assign critical roles like Club Managers, Captains, and Vice Captains. This provides a structured leadership framework within clubs, enhancing their efficiency.

2.4 Approval Authority

Faculty members exercise control over campus activities by approving or declining event requests. This ensures events align with campus policies and guidelines.

2.5 Event and Club Registration

Faculty can oversee event and club registrations, guaranteeing adherence to campus regulations and facilitating a streamlined process.

3. Club Pages

3.1 Club Event Pages

Clubs enjoy dedicated event pages for showcasing their activities. This simplifies event discovery for participants, increasing club engagement.

3.2 Rating and Reviews

Participants have the opportunity to rate and review clubs, fostering transparency. This valuable feedback helps prospective members make informed decisions about joining clubs.

3.3 Event Feedback

Event attendees provide ratings and reviews, offering valuable insights for event improvement and enhancing the overall event experience.

4. For Student (Participant Side) Login

4.1 Event Exploration

Students gain easy access to information about ongoing, past, and upcoming campus events. This keeps them well-informed and engaged in campus activities.

4.2 Notifications

Participants receive timely event notifications, ensuring their active participation and involvement in club activities they follow.

4.3 Club Event Feed

A personalized event feed simplifies event discovery for participants, increasing their engagement with club activities.

4.4 Event Registration

Details on streamlined event registration with in-app payments, making it convenient for students to participate in events.

4.5 Event History

Students can conveniently review their past event participation, helping them track their campus involvement and plan future activities.

4.6 Feedback and Complaints

Participants have a platform to provide feedback and submit complaints, ensuring their concerns are heard and addressed.

4.7 Organizer Verification

Recognition of student organizers through verification fosters their leadership roles, motivating active participation.

4.8 Sharing

Easy sharing of club events through links promotes club activities and increases event attendance.

4.9 Engagement Features

Leader boards, badges, and rewards incentivize active participation, enhancing the overall campus engagement experience.

4.10 Event Recommendations

Personalized event recommendations based on participant interests enhance event discovery, leading to increased event attendance.

5. For Organizers (Promoted Participants)

5.1 Control Requests

Organizers have the ability to request control permissions from approvers, and they can also designate other event organizers.

5.2 Event Management

Organizers gain the ability to monitor event attendance, track finances, and access event-related data. This facilitates better event organization and decision-making.

5.3 Messaging

In-app chat streamlines event communication, promoting efficient coordination and enhancing the participant experience.

5.4 AI Insights

Access to AI-generated insights empowers organizers with data-driven decision-making, resulting in well-planned and successful events.

5.5 Event Collaborations

Features that allow organizers to work together with other participants in planning and executing events.

5.6 Event Advertising

Information on tools that help organizers effectively promote and advertise their events.

5.7 Event Polls and Surveys

Details on how organizers can collect feedback and insights from participants through polls and surveys during events.

6. Interactive Map and AR (Optional)

6.1 Campus Map Integration

The inclusion of an interactive map enhances campus navigation, ensuring participants easily find event venues.

6.2 Augmented Reality Features (Optional)

Augmented reality provides an immersive event experience, making events more engaging and memorable.
